## Project Exhibition

As an engineer our fundamental task is to build stuff, find creative solutions to challenging problems, and do what man once thought to be impossible. If you have been working on a Project that can digitize Oil & Gas Industry, reduce Non Productive Time, increase Profits, and streamline the value chain, then Winter School – 2018 invites you to exhibit your project to industrial leaders, policy makers, technologists, experienced engineers, and academia. Remember what Steve Jobs said, those who are crazy enough to think that they can change the world, are the ones who do.

### General Instructions

- Project Exhibition would include demonstration time and an open question answer session.
- You can use visual aids like power-point presentations, posters, graphics, videos, or other suitable formats to explain your project.
- You must clearly indicate the significance of your project in Oil & Gas Industry.
- A project can be in any form or stage. You can present a hardware prototype; working or static model; developed software or application; theoretical, computational or data-driven study.
